

HINOWA TRACKED WINCH

This Hinowa Track Base is fitted with an Autoguide Winch System and has been designed for a wide variety of uses within the forestry and leisure industries. It has a compact design for easy transportation and accessibility

It is ideal for moving fallen trees and transporting large lengths of timber to areas more suitable for logging. For the leisure industry, it can be used for moving trailers/caravans etc. and for the launch and retrieval of pleasure boats.

For general use, practical design elements provide a safe and easy way to transport equipment and materials.

Features

- ✓ Hinowa 1102 Track Base with twin cylinder water cooled Kubota engine
- ✓ Expanding tracks for additional stability
- ✓ 2 ton capacity remote control winch
- ✓ Additional 55 Ah battery for prolonged winching operations
- ✓ Simple, easy to reach operation
- ✓ Moving blade - providing winch anchor point when the bed is powered down
- ✓ Bolt on changeable blade and aluminium checker plate base
- ✓ Ball and clevis towing point, plus storage when not in use
- ✓ Storage for logging chains
- ✓ Removable bed sides, corner posts and swinging tail board - ideal for tipping or pulling timber straight into the bed
- ✓ Minimal maintenance requirements

Specifications

Track Base

Kubota Engine	Z602
Pistons and displacement	double cylinder 599 cc
Setting	3200 rpm
Max gross power	10,8 kw @3600 rpm
Group 2 gear pump displacement	4.95 / 4.95 / 6.61 cc
Gear pump displacement (optional)	6.61 cc
Pump capacity (travel circuit)	20 lpm
Working pressure (optional circuit)	140 bar
Alternator	12V - 40A

Attachment

Anchor point	2.5 Tonne ram push force for bed/blade
Hitch	1.5 Tonne rated
Dimensions	1000 x 735 x 970 mm
Weight	200 kg

Winch

Capacity	2 Tonne
Motor	1.5 HP
Galvanised wire rope	15.5m
No Load line speed	15.2 m/min
Free spool	Cam operated
Controls	Handlebar switch and two wireless remotes
